- Java
- SQL
- HTML
- CSS
- JavaScript
- Spring Boot
- MySQL
- Github

Certifications

IP Core Solutions(India) Pvt Ltd
Certified professional : Software
Developer Feb-8-2024 to May-8-
2024.

Internship

IP Core Solutions(India) Pvt Ltd
Punjagutta - Hyderabad
2024

- Implemented a responsive design that ensured the web application was accessible on all devices
- Developed a full stack web application from scratch, including back-end services, front-end interface, and database

Projects

Tourism & Booking Web

- As generations advanced and technology improved, people continued to plan tours in earlier times, so I designed a website where we can guide people to book tours in an easy way in just a couple of minutes by clicking on the web. The web page was created using HTML, CSS, JavaScript, and Bootstrap.

Book Management

- I used the Spring Boot application for creating the back-end REST API, and I provided the book ID and name URL. I additionally used the Postman application to test the The back-end CRUD Operation, and it successfully linked to the database maintained by MySQL to save the data.
